Going Paperless- Please join us!

In order to better serve our customers, effective January 1, 2008 Alexander Morford & Woo-Springfield Office will begin delivering documentation including but not limited to policies, endorsements and invoices via email (in lieu of paper).

The advantages of this initiative are many, including greatly reduced turnaround from our office, easier account reconciliation, accelerated billing, ease of document sharing (within and outside your organization) and for those of you who already store documents electronically, it will eliminate the need to scan the materials after they come to your desk. For those who are not already paperless, we hope to help inspire you to join the growing community of environmentally sensitive companies who do the right thing while saving money, time and physical filing space. Another advantage of course is speed – they don't call it "snail-mail" for no reason!

Please let us know if you have any questions or concerns. If you do not have a broadband connection or you aren't yet ready to receive information over the internet, just let us know – we'll continue to send you traditional paper documents until you feel comfortable with this new electronic world.

*Happy Holidays from
AMW- Missouri*

TIMBER!!!!

Do you need help placing your tree and stump grinding contractors?! We have many markets which offer GL and package coverage for tree trimming contractors, including **NEW VENTURES!!** Minimum premiums starting at \$500 for General Liability coverage.

Call us today for a quote!

We've got a policy for that!
